OPINION CIATTI

Passion for design

The items produced by OC are intense and expressive. They reflect a passion for design, which has always been an important aspect of the company's production. Project by project, object by object, OPINION CIATTI has left a network of unique signs.

Furniture pieces are often modifiable and modular compositions: a metaphor of a modern, free and adaptable lifestyle, of a home that flexibly changes in time, along with its furniture. Every OC product has its identity, its source of inspiration and history.

DRESSY by Mobliberica A collection that gets you excited

Directly from our heart and our desire to innovate. From our experience and expertise. From our enthusiasm to participate in creating your perfect home... Thus Dressy was born, as the dream of a few, that comes true to realize the dream of many others.

The elegance and character of metal find the path to merge with the purity and delicacy of wood at the same time meets the versatility of ceramic which convey from the force of the stone up to the personality of the oxide. A beautiful alliance, where avant-garde and character connect with warmth and harmony, creating products designed to captivate.

TERZANI

Art, luxury & design

Since its founding in Florence, Italy in 1972, Terzani has worked to meld traditional Italian craftsmanship with modern technology to create lighting that blurs the lines among art, luxury and design.

Founder, Sergio Terzani, and CEO, Nicolas Terzani, have furthered their experimentation in lighting design with the creation of the Terzani Lab, where new materials, techniques and ideas can be developed and tested. And Terzani continues to commission designs from renowned artists including Nigel Coates, Maurizio Galante, Christian Lava and Dodo Arslan who add their unique voices contribute to Terzani's extensive collection.

JACCO MARIS

Making something from nothing
and creating maximum forms
from minimal amounts of materials...

This is the basic concept that underlies the creation, since 1994, of the light features of Jacco Maris. These are unique objects that combine powerful and exciting looks with graceful harmony and subtle elegance, and which are skilfully and individually handcrafted in our own studio. Most of the Jacco Maris lighting designs are based on metal and steel. These materials and the simplicity in light design are the most important trademark of Jacco Maris Design.

All light fittings are made by hand. This enables Jacco Maris to supplement its standard collections with bespoke work and special designs for projects, incorporating the client's specific wishes in every fine detail.

ALEX DE WITTE

Beauty...

"It is fascinating to me how people have an overall communal perception of beauty. Like scientific studies have proven over the years, symmetry, repetition, balance and harmony with nature affect people's idea of perfectness. As a designer it is my quest to try to influence the phenomenon of beauty being found in the beholder's eye. I aim to play with general perception of beauty and to open up people's minds in that process."

Alex de Witte constantly forces his own perspective and consequently that of the beholder's, by twisting the perception of shape and form.

IBRIDE Made in France

Throughout the surprising territory defined by Ibride, the objects interact, whisper their presence and share our desire for the unique and the extraordinary.

For almost 20 years, Ibride has become the emblem of a sensitive and instinctive design. Enigmatic bestiaries and dreamlike creations have been nattering and investing themselves in our homes. Favouring the 'Made in France' mingling traditional know-how and the latest techniques, the workshop writes its own mythology with its multitude of amazing characters, designed by Rachel & Benoît Convers.

It is a remarkable universe to be discovered...
